Apple iPhone 17

SPCD Space Fun Challenge: Enigma to solve!

"Through space I race and play,
with sparks that light the way,

Yellow and bright,
a flash of electric light,

ESA and I have joined last week,
to celebrate the future we seek,

Guess what I am,
a puzzle to unfold,
and the prize, a Secrid wallet
worth as gold,

only if your picture's the funniest bet.
Capture my charm, and the wallet you'll get."

Prize: Secrid Wallet

Made in The Netherlands!

SPCD Space Fun Challenge: Enigma to solve!

"Through space I race and play,
